

AMIT CHAKDHARE

B.Tech (AI) Student

✉ amitchakdhare@gmail.com 🔗 www.linkedin.com/in/amit-chakdhare-320150339 🔗 <https://github.com/amit-chakdhare09>
📍 Nagpur, Maharashtra, India

SUMMARY

I am a dedicated B.Tech student specializing in Artificial Intelligence with a strong foundation in machine learning and computer vision. My experiences range from internships focused on advanced technology implementation to community volunteering, showcasing my commitment to exploring innovative solutions in space and tech. I am passionate about integrating AI with real-world applications

EXPERIENCE

Campus Ambassador

AXIS, VNIT Nagpur

📅 01/2025 - 08/2025 📍 Nagpur, Maharashtra, India

University program focused on student leadership and engagement

- Served as Campus Ambassador, promoting the AXIS program
- Engaged with peers and contributed to program outreach

Intern

Pantech.AI

📅 12/2023 - 03/2024 📍 Nagpur, Maharashtra, India

Company specializing in AI and machine learning solutions

- Worked as an intern in machine learning and computer vision projects
- Gained experience in integrating various ML algorithms

Student Volunteer

ENGINEERING INDIA

📅 09/2023 - 09/2023 📍 Nagpur, Maharashtra, India

Organization supporting engineering students and professionals

- Volunteered time to support engineering community initiatives
- Contributed to events and activities that promoted engineering education

EDUCATION

Bachelor of Technology - BTech, Artificial Intelligence

G H Raisoni College of Engineering and Management (GHRCEMN)

📅 01/2023 - 07/2027 📍 Nagpur

SKILLS

C++ MediaPipe OpenCV

Python Rust YOLO

PROJECTS

Enhanced MediaPipe Pose Estimation

<https://github.com/amit-chakdhare09/Enhanced-MediaPipe-Pose-Estimation>

A project focused on enhancing pose estimation for better visual representation

- Developed an advanced pose estimation system utilizing MediaPipe to achieve smoother and accurate skeleton visualizations
- Implemented temporal smoothing, landmark interpolation, and frame preprocessing to enhance performance

Integrated Object-Pose Detection Pipeline

<https://github.com/amit-chakdhare09/Integrated-Object-Pose-Detection-Pipeline>

A project integrating advanced technologies for real-time object and pose detection

- Built a real-time system combining YOLOv8 for object detection and MediaPipe Pose for skeletal landmark tracking
- Integrated with OpenCV for video annotation and output; supports customizable pipelines and model tuning

INTERESTS

Passion for Space & Tech Innovation

A strong interest in space technology and innovation areas, demonstrating a commitment to using technology to solve real-world problems
